PRINCIPAL'S SPOT: Dear Moms, we applaud your hard work, your energy, and deep love for your precious children. We are here to encourage you to be diligent and not faint. We are here to help you, support you, and continue the work of raising godly children here on this earth. "Parents are to look upon their children as entrusted to them of God to be educated for the family above... While grave and important duties rest upon the father, the mother, by almost constant association with her children, especially during their tender years, must always be their special instructor and companion." (EGW Child Guidance p24) God bless you and Happy Mother's Day!

Grades 1-4: In our class, the students are researching animals from the jungle, forests, or woods. Their poster boards are well done and the presentations are great precursors to their future roles as leaders in our community! Go Team!

Grades 5-8: Our next big Social Studies project is coordinated with Language Arts. We are researching, writing and presenting a paper on one of our subtopics of ancient Greece. This work is spread over two weeks and meets multiple learning requirements as well as providing us with practice for high school and college.
